

**One app. One payment.  
Yours to keep.**

A complete ordering app, built around your brand — no monthly fees, ever.

**₦1,200,000**

one-time

## WHAT YOU'RE GETTING

### Your own branded app

Your name, logo and colours throughout. Customers download "Cakeys **With Love**" — not a shared platform. It's a real asset you own.

**₦400,000**

### A shopping app for your customers

They browse your menu, place orders, pay, and follow their delivery — all inside your app, anytime.

**₦450,000**

### Your control centre + launch

Run everything from your phone — orders, prep times, riders, menu and prices. We publish it to the store and support you for 30 days after launch.

**₦350,000**

## Total

One-time payment — nothing monthly

**₦1,200,000**

### How payment works

**50%**

#### ₦600,000 to start

Reserves your build dates, work begins

**50%**

#### ₦600,000 at launch

When your app goes live in the store

### ✓ What you'll never pay

- ✓ No monthly subscription
- ✓ No app store fees on your side
- ✓ No separate bill for the **ordering & payment system** — it's included

We launch on **Android** first, where most of your customers are. When you're ready, your app can be switched on for **iPhone** too — it's the same app, so nothing is rebuilt.
